

THE COVID-19 FAMILY MESSAGE CENTER AT

PLEASE NOTE:

If your loved one is impacted directly by the COVID-19 crisis, you will receive a phone call from a Staff Member associated with The Centers at St. Camillus with further details.

Dear St. Camillus Residents, Patients and Family Members,

The health and safety of our residents, staff and visitors is paramount. We want to maintain transparency and notify you that in the past week we've had **1 resident on the KB Unit, 3 residents on D-Unit, 2 residents on the 2nd floor** as well as **5 staff members in the facility** test positive for Covid 19.

Please be assured that we are following the NYS Department of Health and CDC guidelines to maintain the wellbeing of all.

The visitation policy remains the same. All visitors will need to provide proof of a negative **PCR test within the last 48 hours** or proof of a negative **Rapid Test within the last 24 hours**. The facility does offer rapid test kits on-site to use in the lobby (self-administered).

Please use your cell phone to verify negative status of tests; email per PCR tests taken outside of the facility and cell phone photos for ALL Rapid Tests. If you do not have a cell phone available, bring test kit to front desk for verification.

Please Note: A COVID diagnosis within the past 90 days will still require a negative test. All visitors are required to complete the health screen and attest to the self-administered test. This check-in process may take up to (20) minutes before receiving approval for visitation.

We appreciate your understanding and support with the new visitation protocol.

Note:

We continue to offer the Covid-19 vaccine and booster as applicable. We also continue to provide Covid-19 testing for staff and residents based on DOH regulations.

A MESSAGE FROM ST. CAMILLUS
